

To whom it may concern:

We at Epoxytec felt that Mario of Mendelson Consulting did an excellent job of teaching us Quick Books. We have used other companies before and had to keep searching because, while they might have known how to use Quick Books, they were not able to transfer the information to us. Mario not only explained QB, he taught us to use it in a simple to understand way. Neither Al nor myself are very computer savvy, so we know Mario must be good, to make Al and I to feel comfortable when using QB. We highly recommend Mendelson Consulting for the QB program.
